Brand Style Guideline
Banana Health

Introduction

01

Brand Style Guide

A brand style guide is a comprehensive document that outlines the guidelines for how a brand should be presented visually and tonally across all communication channels. It serves as a reference tool for designers, marketers, writers, and anyone else involved in creating content for the brand to ensure consistency and coherence in messaging and visuals.

These guidelines will instruct you on how to use your brand identity effectively, to make all brand communications look their best.

Welcome

Banana Health

Banana Health is a brand committed to transforming male sexual health by providing a natural, lifestyle-based solution for erectile dysfunction (ED). Unlike conventional treatments that rely on medication, Banana.Health creates a safe, discreet, and supportive space where men can address and resolve their concerns permanently. This creative brief outlines the brand's purpose, positioning, and visual direction, ensuring its identity aligns with its mission to redefine conversations around ED and offer real, lasting change.

Brand Goals

The brand aims to help 100,000 men overcome ED naturally by 2028, prioritizing discretion and trust in a market where open discussions are rare. Banana.Health seeks to build a supportive community for men and their partners, offering effective, non-medicated solutions to restore confidence and well-being.

Brand Mission

BananaHealth's mission is to offer a permanent, natural solution to ED through lifestyle changes, not quick fixes. With expert guidance and personalized coaching, the brand helps men regain confidence, improve well-being, and break the stigma around ED, providing a proven path to recovery.

Brand Vision

BananaHealth envisions reshaping male sexual health by breaking taboos and offering science-backed solutions. It aims to be a trusted name in ED recovery, fostering open conversations. As the brand grows, it plans to expand beyond digital platforms into merchandise, supplements, and lifestyle products to further support men's health.

The Logo

The Logo

The logo is a visual symbol or mark used to represent a company, organization, product, service, or brand. It serves as a unique identifier that helps customers and audiences recognize and remember the entity it represents. Logos can take various forms, including emblems, icons, symbols or logotypes and they are often designed to convey the essence of the brand or convey its values, identity, and personality.

Key characteristics of effective logos include simplicity, memorability, versatility, and relevance to the brand they represent. Logos are typically used across a wide range of media, including websites, packaging, advertising materials, signage, and more, to create a consistent and recognizable brand identity.

The 'Banana Health' logo is a refined representation of the brand's vision and core values, combining elements of design and innovation into a simple yet impactful visual identity.

Brand Mark

A Brand Mark is a distinct visual symbol or icon representing a brand, often without text, making it instantly recognizable.

The 'Banana Health' logo is a refined representation of the brand's vision and core values, combining elements of design and innovation into a simple yet impactful visual identity. It seamlessly blends health, vitality, and nature, ensuring strong brand recall and authenticity.

Logotype

The Banana.Health logo is more than just a visual mark – it represents the brand’s core values of trust, discretion, and transformation. Its design embodies innovation and progress while maintaining a sense of simplicity and approachability. The logo reflects the brand’s commitment to breaking taboos around male sexual health, offering a modern, stigma-free solution. Its minimalist and versatile design ensures strong recognition across digital platforms, merchandise, and future product lines.

Logo Color Option

Logo color options refer to the logo in different color variations or combinations that can be used for a logo design. These options are typically provided to ensure versatility and adaptability across various mediums, contexts and preferences.

Clear Space

Logo clear space refers to the area surrounding a logo that should remain free of any other visual elements, such as text, graphics, or imagery. This clear space is essential for maintaining the visibility, legibility, and impact of the logo, ensuring that it stands out and remains recognizable in various contexts and sizes.

The clear space around a logo is typically defined by specifying a minimum distance or margin that should be maintained between the logo and any surrounding elements. This distance is measured in relation to the height, width or other dimensions of the logo and is often expressed as a percentage or specific unit of measurement.

The purpose of logo clear space is to prevent visual clutter and interference that could diminish the effectiveness of the logo. By providing adequate breathing room, the logo can maintain its integrity and prominence, whether it's displayed on printed materials, digital screens, signage, or other surfaces.

Minimum Size

The logo minimum size refers to the smallest dimensions at which a logo should be reproduced while still maintaining its visual integrity, legibility, and impact.

Creating a minimum size specification for a logo is important to ensure that it remains recognizable and effective across different applications, such as printed materials, digital platforms, signage, and merchandise. Logos that are reproduced too small may become illegible or lose important design details, resulting in diminished brand recognition and impact.

Color

03

A logo color palette is a set of predefined colors reflecting a brand's personality and values, ensuring consistency across materials with accurate color reproduction based on psychology and cultural associations.

Primary Colors - Yellow (#FFD700) & Brown (#473113)

Yellow symbolizes energy, optimism, and warmth, reflecting the brand's positive and empowering approach. It captures attention while conveying a sense of hope and renewal. Brown, on the other hand, represents stability, reliability, and a grounded, natural approach -reinforcing the brand's commitment to long-term, sustainable solutions. Together, these two colors form the core identity of the brand, striking a balance between vibrancy and trust.

Secondary Color - White (#FFFFFF)

White signifies purity, clarity, and simplicity. It ensures a clean and approachable brand presence, allowing key design elements to stand out while promoting a sense of openness and honesty.

Together, these colors create a cohesive, memorable identity for the brand, ensuring clarity, trust, and a modern yet inviting visual appeal

Typeface

The typeface is a fundamental element of brand identity design, influencing how a brand is perceived and remembered by consumers. It's essential for brands to carefully consider typeface selection and use it strategically to reinforce their identity, communicate their message effectively, and create meaningful connections with their audience.

Primary Typeface - Altman Grotesk

The primary typeface for Ineffa, Gilroy, is a modern and distinctive font characterized by its unique curves and geometric shapes. Gillroy features a geometric sans-serif style that provides a sense of professionalism and sophistication, making it suitable for body text, descriptions, and supporting content. Its balanced proportions and readability ensure that the brand's messaging remains clear and accessible across various platforms. Gillroy creates a harmonious visual identity, blending modernity with reliability, which aligns with Ineffa's commitment to offering exceptional services.

Altman Grotesk

Typeface Weight

Altman Grotesk, is used in both bold and regular weights. The bold weight is ideal for headings, or any content needing emphasis, adding a slightly bolder look without overpowering. The regular weight ensures easy readability for body text and supporting text, bringing a clean, professional touch to the overall typography.

Typeface Hierarchy

Typeface hierarchy refers to the organization and prioritization of different typefaces within a design system to convey information effectively and create visual hierarchy. It involves assigning specific typefaces to different levels of content based on their importance, such as headlines, sub-headings, body text, and captions, to guide the reader's attention and enhance readability.

We employ the golden ratio number “1.618”, for achieving a perfect typeface hierarchy. You can see how the golden ratio number is applied for typeface hierarchy on the right side of this page.
